

REMARKS

Applicant has carefully reviewed the specification and the claims amended in an earlier response, and acknowledges improper description in claim 1. Claim 1 is thus amended by deleting a case in which R¹ is methyl and R² is phenyl. Applicant believes that this amendment will overcome the Examiner's rejection regarding new matter.

Applicant also believes that the foregoing is a complete response to the Office action, and respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

Charles E. Baxley
